**Clay Type (name and brand, firing temperature/range; note the bisque firing temperature is standard cone 06):**

---

**Glaze Type (name and brand, firing temperature/range):**

---

---

**Please note:-**

- All greenware must be bone dry when it is delivered.
- All glazed work must have been bisque fired already.
- All glazed work must be glaze-free on the base and 5mm up from the base (on the side).
- Grogged clay and porcelain will need setters.
- Dark coloured clay needs setters and will be charged for a full shelf.
- You will need to provide your own stands for jewellery.

You are liable for costs related to any damage that is made to the kiln or kiln equipment as a direct result of firing your work. I will take care of your work but cannot take responsibility for breakages or damage to your work.

By signing this form, you are agreeing to the above.
